

CCR – Lecture Series

Monday, June 10th 2024, 1:00 PM

Kjetil Taskén

Oslo University Hospital
Institute for Cancer Research

Tumor Immune Evasion Mechanisms, Immune Regulation and Regulatory T cells

Dr. Taskén will talk about how tumors evade the immune system through a number of immunoregulatory networks and the involvement of regulatory T cells. Furthermore, he will describe results from an ongoing program in the Taskén laboratory to take forward small molecule inhibitors of regulatory T cells and their potential application as future immunotherapy.

Venue: Lecture Hall B2, Borschkegasse 4a

Time: Monday, June 10th 2024, 1:00 PM

Host: Petra Heffeter
