Thursday, August 8<sup>th</sup> 2024, 10:00 AM

---

## Genetic and environmental factors influencing the human microbiome

---

### Alexander Kurilshikov

Assistant Professor, Department of Genetics, University Medical Center Groningen (UMCG)

Alex is focusing on bioinformatics approaches to study host and environmental factors shaping the human microbiome. He has [co-authored >100 papers, an h-index of 40, and his papers have been cited >18,000 times.](#) Here, he will give an overview on his work including his 2021 landmark paper in *Nature genetics* ([Large-scale association analyses identify host factors influencing human gut microbiome composition](#)).

**Venue:** CCR Lecture Hall, Borschkegasse 8a

**Time:** Thursday, August 8<sup>th</sup> 2024 – 10:00 AM

**Host:** Thomas Vogl
